

BRILL

Dear Dr Spinelli, and to whom else it may concern,

This letter serves to express Brill's interest in the publication of the *Latin Diachronic Frequency Dictionary* which was created by Dr Tommaso Spinelli in collaboration with Dr William M. Short, Giacomo Fenzi and Jack Leslie. Brill has the intention to find ways to publish this work in an online format, provided that Brill and Dr Spinelli and his team reach an agreement on the publication model for this work.

I sincerely hope that we will be able to find a suitable publishing format for this valuable work and I look forward to a fruitful co-operation.

If you have any further questions, please do not hesitate to contact me.

Yours sincerely,

Mirjam Elbers,  
Sr. Acquisitions Editor BRILL
